TopYacht – WebTimes – direct Importation of finish times

Update TY go to Help >> Check for Updates. Update to 10.4.1.9 (11/01/02014) or newer. Then....

Step1: Select Data Capture Mode

Step 2: Select Import - Race Session Finish Times

DATA CAPTURE MODE						
Capture						
C Capture - Race Session Finish Times						
Import - Race Session Finish Times						
O Boats On Water						
O Boats Off Water						
C Mark Roundings						
[]] Select / Create Session						

Step 3 – Press Select / Create Session button as above.

Step 4 – Select the **Session Date** and **Day Session No** –*even if* they are already displayed on the values you want!

Race Sessions: Create / Select / Edit: Capture Mode = Import - Race Session Finish Times								
Session Date Day Sess No 11/10/2014 2	Session Note CMS Div 2 & Div 3	C Capture Finish Times						
No of Day Sess: 2 Day Sess No: 2	Sess ID: 2							
+ Create New Race Session	😭 Change Session Date /Day No 🛛 🗈 Save Change							
+ Clone the Selected Session	🔇 Add Additional Series to Selected Session	Marce Session Times						
		L						

Step 5- Press the Import race Session Times (right hand side in screen shot above).

Step 6 – Press the new green button **9B**.

Step 7 – Press the Validate button which now shows top left.

Step 8 – compare the list of sail number in the left window with those in the right Window. Correct any un-matched (white background) sail nos in left window to match those in right window.

Step 9 – note the start times (in left window) on a piece of paper.

J	00000	10	52	10	
	CMSDIV2	13	40	00	START
	CMSDIV3	13	50	00	START

Step 9 – press the Load into TopYacht button that should have appeared.

Step 10 – Close the import screen and process race(s) as normal.
